DETAILED ACTION

This Office Action is in response to the Pre-Appeal Brief Conference Request filed on September 1, 2008 and the subsequent Pre-Appeal Brief Conference Decision rendered on October 29, 2008.

Response to Arguments

Applicant's arguments, filed in the Pre-Appeal Brief Conference Request received on September 1, 2008, with respect to the rejection(s) of claim(s) 1,4-6, 8-10, 12, and 35-37 under 35 USC 102 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made below.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 35-37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 35 recites the limitation "the second positive voltage" in line 24 (near the last line). There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

Claims 1,4-6, 8-10, and 12 are allowed.

Claims 35-37 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Shiraiwa et al. (US 7,151,293 B1) discloses similar configurations as the applicant's claimed invention but does not qualify as proper prior due to the filing date.
